Pricing Optimization & Profitability Intelligence

Synthetic-data executive report | 2024-01-01 to 2025-12-31 | generated 2026-10-28T12:03:24.509530+00:00

Metric	Value
Net sales revenue	4,716,195.44
Gross profit	1,438,514.27
Gross margin	30.50%
Weighted average discount	10.22%
Units sold	51,458
Product exception flags	26

Key findings and recommendations

• Sports has the highest observed revenue at 554,810.19 (11.8% of all revenue).

• Sports contributes the highest category gross profit at 190,813.09.

• Overall gross margin is 30.5%; weighted average discount is 10.2%.

• The >30% discount band records revenue 289,314.72, gross profit 2,270.31, and margin 0.8%; this is descriptive, not causal evidence.

• 26 products are flagged by the transparent screening rules (margin below 15%, weighted discount above 30%, or negative gross profit).

Caution: Synthetic, observational data only. Gross profit excludes operating costs, taxes, returns and shipping. Discount associations are not causal effects.
